Subject: Former Rhone Poulenc field activity notice

Hi Janette,
This notice is being provided on behalf of the Respondents to fulfill the requirement for notification of upcoming field activities in the U.S. Environmental Protection Agency Region 10 Administrative Order on Consent No. 1091-11-20-3008(h). DOF would like to perform monthly water level measurements under the Pre-CMS Data Collection Work Plan on May 21, 2021, along with routine discharge water sampling and site inspection activities. DOF recognizes this is within the 10-day notification window and can reschedule the work for next week if this presents any issues.

Thank you,
Tasya
